

PLA0062896 Water Plan

**Notes:**

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

De-Cimur Cynglynging (The Company) gives this information as to the position of its underground apparatus by way of general guidance only and is not the strict understanding that it is based on the best information available and no warranty as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the company's apparatus. The usual of locating apparatus before carrying out any excavations rests entirely on you. The information which is supplied by the Company, is done so in accordance with statutory requirements of sections 198 and 199 of the Water Industry Act 1991 and the related provisions of the Water Act 2003. The Company does not warrant without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not disclose the existence of a water main, service pipe, sewer, lateral drain or disposal main and any associated apparatus laid before 1 September 1990, or if they do, they may not be accurate. The Company does not accept any liability for any loss or damage caused by the furnishing of this information is entirely without prejudice to the provision of the London and Street Works Act 1991 and the Company's right to be compensated for any damage to its apparatus.

EXACT LOCATIONS OF ALL APPARATUS  
TO BE DETERMINED ON SITE.
