Note

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

De Ceu Cuyt (Cyprus) the Company, gives this information as to the position of the underground apparatus by way of a declaration that it is correct and true. The Company is not responsible for the use of this information and for its consequences is relied upon in the event of accidents or other works made in the vicinity of the company's apparatus. The owner of located apparatus before carrying out any excavations was entirely on his own. The information which is supplied by the Company is correct and true in the years 1960 and 1961 of the Republic of the United Kingdom of Great Britain (hereinafter referred to as the best information available and, in particular, but without prejudice to the generality of the foregoing, in the event of any excavation or other work made in the vicinity of the company's apparatus, the owner of the pipe, sewer, lateral drain or disposal main and any associated apparatus laid before 1 September 1960, or, may do, the particulars thereof including their position underground may not be accurate. It must be understood that the above information is not intended to be a warranty or guarantee of the accuracy of the New Roads and Street Works Act 1991 or the Company's right to be compensated for any damage to its apparatus.

Service pipes are not generally shown but their presence should be anticipated.

Service pipes are not generally shown but their presence should be anticipated.
